Cyborg Vol. 2: Danger in Detroit Jan 03 2021 CYBORG VOL. 2: DANGER IN DETROIT is a thrilling series by animation writer John Semper Jr. (Spider-Man: The Animated Series) and artists Will Conrad (NIGHTWING) and Paul Pelletier (AQUAMAN). Cyborg is the Justice League's most high-tech hero, but can he withstand an attack by another of his brilliant father's creations? Captured by those he thought he could trust, Cyborg discovers a covert plot to use alien technology to start a world war. And when he winds up imprisoned

in the heart of S.T.A.R. Labs, an unorthodox escape plan brings him face-to-face with Anomaly, a human-machine hybrid created by Cyborg's father Silas years before Vic Stone became Cyborg! Only the now-missing Silas Stone holds the answers to the puzzle Anomaly presents, but before Cyborg can rescue his father, he'll first have to free the city of Detroit from the villainy of the bizarre Lord of the Rats! Rocketing from the pages of DC REBIRTH: JUSTICE LEAGUE, CYBORG VOL. 2 collects issues #6-13.

Michigan Historical Collections, Vol. 40 Jun 08 2021 Excerpt from Michigan Historical Collections, Vol. 40: Documents Relating to Detroit and Vicinity, 1805-1813 Excepting Hull's Defence the entire text is from photo stat copies in the Burton Historical Collection of the Detroit Public Library, which were made from documents in the War Department; the Defence is direct from the original manuscript at Washington. The aim has been to reproduce the documents accurately, retaining the peculiarities of spelling, punctuation and capitalization except where these would be confusing. The volume of course is not one to be read casually, but for reference. Persons using the documents for serious purpose will be familiar, presumably, with the people, places, and general setting. Obviously the region covered is Michigan, Ohio, and Indiana; and the historical collections published by these states, among the materials valuable for elucidation of the documents, are easily accessible; as also are the general studies and special monographs upon the history of these states. The Introduction to the volume, covering the life and service of Hull, was written originally for the Year Book, Michigan Society Sons of the American Revolution, 1919-1923, and is here printed substantially as it there appeared. The City of Detroit, Michigan, 1701-1922 Volume 2 May 19 2022 This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1922 edition. Excerpt: ... middle branch of the River Rouge and the Pere Marquette Railroad. During the Civil war, Waterford supplied more volunteers than any village of its size in Wayne County. Willow, a small station on the Pere Marquette Railroad in the southwestern part of Huron Township, was formerly called Belden. It is on the rural mail route from Waltz. EXTINCT VILLAGES Old maps of Wayne County show a number of postoffices and villages that do not appear on maps of the present day. Some were founded by speculators and were doomed from the beginning to perish. Others served as social centers and trading points for certain districts until improved transportation diverted trade elsewhere and they succumbed. The following list contains most of these extinct villages and discontinued postoffices: Fairview, in Grosse Pointe Township, annexed to Detroit in 1907; Glenwood, now a part of Wyandotte; Leesville, in Hamtramck Township; Meads Mill, in Northville Township, about a mile and a half north of Waterford; Navarre (or Oakwood), a suburb of Detroit, just across the River Rouge from Delray; Newburgh, in the southwest corner of Livonia Township (also called Nankin postoffice); Oak, in the southern part of Redford Township; Plank Road, in the northwest corner of the same township; Schwarzburg, on the south branch of the River Rouge in Nankin Township; Sibley, still a small station on the Michigan Central Railroad in Monguagon Township; Smith-vide, in the eastern part of Sumpter Township; South

Trenton, in Monguagon Township; Surfitt, in the central part of Nankin Township; West Sumpter, near the Washtenaw County line in the western part of Sumpter Township; Whitewood, in the eastern part, and Yew in the western part of Greenfield Township. A few of these places...

Revolution Detroit Nov 01 2020 After decades of suburban sprawl, job loss, and lack of regional government, Detroit has become a symbol of post-industrial distress and also one of the most complex urban environments in the world. In *Revolution Detroit: Strategies for Urban Reinvention*, John Gallagher argues that Detroit's experience can offer valuable lessons to other cities that are, or will soon be, dealing with the same broken municipal model. A follow-up to his award-winning 2010 work, *Reimagining Detroit*, this volume looks at Detroit's successes and failures in confronting its considerable challenges. It also looks at other ideas for reinvention drawn from the recent history of other cities, including Cleveland, Flint, Richmond, Philadelphia, and Youngstown, as well as overseas cities, including Manchester and Leipzig. This book surveys four key areas: governance, education and crime, economic models, and the repurposing of vacant urban land. Among the topics Gallagher covers are effective new urban governance models developed in Cleveland and Detroit; new education models highlighting low-income-but-high-achievement schools and districts; creative new entrepreneurial business models emerging in Detroit and other post-industrial cities; and examples of successful repurposing of vacant urban land through urban agriculture, restoration of natural landscapes, and the use of art in public places. He concludes with a cautious yet hopeful message that Detroit may prove to be the world's most important venue for successful urban experimentation and that the reinvention portrayed in the book can be repeated in many cities. Gallagher's extensive traveling and research, along with his long career covering urban redevelopment for the Detroit Free Press, has given him an unmatched perspective on Detroit's story. Readers interested in urban studies and recent Detroit history will appreciate this thoughtful assessment of the best practices and obvious errors when it comes to reinventing our cities.

The Detroit Novels Volume One May 27 2020 Motor City's criminal underworld comes to life in the first three Detroit novels from the "pithy, punchy" four-time Shamus Award winner (The New York Times Book Review). In *Edsel*, it has only been two decades since Connie Minor was on top, but it feels like centuries. Once a journalist, Minor spent Prohibition with his finger on gangland's pulse, a confidant of every rumrunner, boss, and triggerman in Detroit. But as the gangsters fell, Minor went with them, replaced by a generation of reporters more interested in the Nazi Party than the inner workings of the Purple Gang. Now it's the 1950s, and after years writing mindless ad copy, Minor fears that his brain may be permanently atrophied—that is, until an exciting new job drops on his desk. Minor is hired to sell Ford's most original creation, the *Edsel*, meant to take America by storm. But the job quickly reintroduces him to some ugly old Detroit faces. When he uncovers a conspiracy, his reporter's instincts kick in. It's been years since Minor gabbed with mobsters, but it's never too late for an old newspaperman to get whacked. In *Stress*, for Paul Kubicek and the city of Detroit, 1972 ends in a haze of blood. A police officer in need of extra work, Kubicek spends New Year's Eve moonlighting as a security guard at an upscale party. Just before midnight, he sees three black men, a shotgun, and a pistol. He takes out the would-be burglars in less than a minute. Only after they are all dead does he realize one man was unarmed. The police department asks Charlie Battle, one of its few African American officers, to head up

the investigation into Kubicek's shooting. As racial tensions threaten to tear Detroit apart, Battle tries to break through the department's code of silence, fighting for truth in a city where lies are a way of life. And in *Motown*, rage simmers beneath the tranquil surface of 1960s Detroit. As the auto industry enjoys its last moments of prosperity, widespread discrimination infuriates the city's black middle class. One of the most destructive riots of the twentieth century is around the corner, and Rick Amery is going to be right in the middle. A longtime cop forced out of the department on trumped-up graft charges, Amery shares Detroit's obsession with muscle cars. It was the temptation of a white '64 Thunderbird that cost him his badge, and it is for the sake of General Motors that he takes his first job as a private investigator, digging up dirt on a consumer advocate who calls GM cars death traps. Amery must work quickly, for no hot rod on Earth is fast enough to outrun the trouble that's gaining on the Motor City.

Detroit's Street Railways Aug 22 2022 Detroit's Street Railways tells the story of public transportation in the Motor City. Dating back to 1863, when horse-drawn streetcars serviced the citizenry, public transportation in Detroit has a proud and colorful history. Early on, a host of streetcar companies carried Detroiters about their daily business. This period was followed by consolidation into one company, the Detroit United Railway, and later the establishment of the municipally owned Department of Street Railways. The Department of Street Railways, established May 15, 1922, inherited a vast system of streetcar lines throughout Detroit, the first city in the United States to establish municipally owned transit system. It was a leader and innovator in the transit industry, with continued streetcar service until April 8, 1956, when the last streetcars on Woodward Avenue were replaced by buses. When the Department of Street Railways began coach operations in 1925, the intent was to provide feeder service to the established streetcar lines, as expansion costs were prohibitive. Sadly, the program implemented to complement the city's streetcar operations led to the demise of the streetcar as the principal mode of transportation in the Motor City.

Fruits of Perseverance Apr 25 2020 Founded by French military entrepreneur Antoine Laumet de Lamothe Cadillac in 1701, colonial Detroit was occupied by thousands of French settlers who established deep roots on both sides of the river. The city's unmistakable French past, however, has been long neglected in the historiography of New France and French North America. Exploring the French colonial presence in Detroit, from its establishment to its dissolution in the early nineteenth century, *Fruits of Perseverance* explains how a society similar to the rural settlements of the Saint Lawrence valley developed in an isolated place and how it survived well beyond the fall of New France. As Guillaume Teasdale describes, between the 1730s and 1750s, French authorities played a significant role in promoting land occupation along the Detroit River by encouraging settlers to plant orchards and build farms and windmills. After New France's defeat in 1763, these settlers found themselves living under the British flag in an Aboriginal world shortly before the newly independent United States began its expansion west. *Fruits of Perseverance* offers a window into the development of a French community in the borderlands of New France, whose heritage is still celebrated today by tens of thousands of residents of southwest Ontario and southeast

Michigan.

The Fifty-Year Rebellion Jan 23 2020 "On July 23, 1967, the eyes of the nation fixed on Detroit as thousands took to the streets to vent their frustrations with white racism, police brutality, and vanishing job prospects in the place that gave rise to the American Dream. For mainstream observers, the "riot" brought about the ruin of a once-great city, and then in 2013, the city's municipal bankruptcy served as a bailout that paved the way for Detroit to finally be rebuilt. Challenging this prevailing view, Scott Kurashige portrays the past half-century as a long "rebellion" the underlying tensions of which continue to haunt the city and the U.S. nation-state. Michigan's scandal-ridden emergency-management regime represents the most concerted effort to quell this rebellion by disenfranchising the majority black citizenry and neutralizing the power of unions. The corporate architects of Detroit's restructuring have championed the creation of a "business-friendly" city where billionaire developers are subsidized to privatize and gentrify downtown while working-class residents are squeezed out by rampant housing evictions, school closures, water shutoffs, toxic pollution, and militarized policing. From the grassroots, however, Detroit has emerged as an international model for survival, resistance, and solidarity through the creation of urban farms, freedom schools, and self-governing communities. A quintessential American story of tragedy and hope, *The Fifty-Year Rebellion* forces us to look in the mirror and ask, Are we succumbing to authoritarian plutocracy, or can we create a new society rooted in social justice and participatory democracy?"--Provided by publisher.
