Our Voices Apr 17 2022 What are the key issues facing black women in America today? Does God's Word offer guidance in how to navigate the realities and difficulties posed by those issues? After surveying black women across America to determine which topics are heaviest on their hearts, the authors of *Our Voices* present a very personal and practical overview. Ten women share with the

reader their journeys and what they have learned from God's Word about His perspective on key issues facing them as black women. This book provides a powerful challenge to the reader to walk in obedience to God's Word, amid a culture that is bent on rebellion and that beckons us to do likewise.

Family and Gender Among American Muslims Mar 04 2021 Since the beginning of the twentieth century, Muslims have been immigrating to the United States from nations such as Lebanon, Yemen, Palestine, Turkey, Iran, Pakistan, and Bangladesh. Previously underrepresented in ethnic studies literature, these nearly four million descendants of previous immigrants and the new arrivals have settled in large numbers in Los Angeles, Chicago, New York, Detroit, and other North American cities. From the social and historical conditions of the Muslim migration to a range of issues affecting Muslim American life, the contributors provide new and valuable information on topics like intergenerational conflict about identity and values, intermarriage, religious and community involvement, gender and family structure, education, the needs of the elderly, and physical and mental health problems, including AIDS. In the final section, some of these issues are given a personal dimension through the life stories of several immigrants who relate their own experiences of adjusting to life in America. Author note: Barbara C. Aswad is Professor of Anthropology at Wayne State University and the author of *Arabic Speaking Communities in American Cities*. >P>Barbara Bilge is Lecturer in Anthropology and Sociology at Eastern Michigan University and author of several articles on Turks and other Muslims in the Americas.

Building the American Fulcrum Mar 16 2022 "Building The American Fulcrum" provides a starting point for discussing social, operation and economic issues that are in need of change in our country. This book delivers complex solutions to the complex issues facing America today. By establishing a common forum for discussion, Americans can express their view to give structure and balance to these issues. It is vital to the existence of our future selves that we use our collective voices during this time of change, and work to an agreed set of beliefs that the Modern American majority can support. "Building The American Fulcrum" offers not only incredible ideas to resolve the current problems facing our country, but also challenges every American to use their voice in helping guide America into our future.

F.R.E.E.D.O.M. Apr 24 2020 Understanding the intricacies of today's political issues can be a challenging task. It is difficult to know which information to believe and which to discard. In *F.R.E.E.D.O.M.*, author James Liberty presents a collection of essays that delve into the aspects of the seven most important political issues facing Americans today. Liberty explores these topics and provides the

information needed to make educated decisions to maintain your freedom. F.R.E.E.D.O.M. addresses seven vital areas in which your freedoms are being stripped from you every day: Fighting terrorists Reforming healthcare Economy Energy Discovering the truth about climate change Obtaining better education for our children Misleading media In addition, F.R.E.E.D.O.M. spells out the key differences between liberals and conservatives. It helps you understand the ins and outs of the political issues so you can chose a side based on reasoning and facts rather than on talking points and misinformation.

I Made My Choice—Have You? Sep 10 2021 The twenty-four-hour news cycle brings the issues facing America to the forefront every single day. Author Blair Stevens sees parallels between many of these issues and his own life experiences. He offers his unique take on them in *I Made My Choice—Have You?* A husband, father, and businessman, Stevens discusses several of the most pressing concerns facing Americans today. He explains how working in Mexico City as part of his job shapes his observations on illegal immigration and reveals some possible solutions that America can take to stem the tide. When Stevens' unwed daughter became

pregnant, another hot-button issue—abortion—landed right on Stevens' front doorstep. With warmth and honesty, he shares how the family navigated his daughter's decision to keep the baby and opens up about his views on the right to life. In addition, Stevens discusses other important topics including drug abuse, teen suicide, education, and racism, all within the prism of his experiences. Down-to-earth and engaging, *I Made My Choice—Have You?* seeks to help you look at today's current events in a different light.

How Then Will We Act? Jul 28 2020 Social issues are issues for Christians because they are moral issues. The author brings God's word to bear on six moral issues facing Christians in North America: the nature of Christian citizenship, gay "marriage," racism, abortion, gambling, and the breakdown in morality that leads to high rates of crime and incarceration. Confessing Christians today are confronted by serious moral issues. As the end times approach, confessing Christians are going to be more and more marginalized in a dominant culture that values "the freedom" to kill unborn children and the "civil rights" of homosexuals to "marry" each other. In these last days, the church of Jesus must be willing to be a confessing church.

America at Risk Nov 12 2021 *America at Risk* gathers original essays by a distinguished and bipartisan group of writers and intellectuals to address a question that matters to Americans of every political persuasion: what are some of the greatest dangers facing America today? The answers, which range from dwindling political participation to rising poverty, and religion to empire, add up to a valuable and timely portrait of a particular moment in the history of American ideas. While the opinions are many, there is a central theme in the book: the corrosion of the liberal constitutional order that has long guided the country at home and abroad. The authors write about the demonstrably important dangers the United States faces while also breaking the usual academic boundaries: there are chapters on the family, religious polarization, immigration, and the economy, as well as on governmental and partisan issues. *America at Risk* is required reading for all Americans alarmed about the future of their country. Contributors Traci Burch James W. Ceaser Robert Faulkner Niall Ferguson William A. Galston Hugh Hecl Pierre Manent Harvey C. Mansfield Peter Rodriguez Kay Lehman Schlozman Susan Shell Peter Skerry James Q. Wilson Alan Wolfe Robert Faulkner is Professor of Political Science at Boston College. Susan Shell is Professor of Political Science at Boston College. "America at Risk goes well beyond the usual diagnoses of issues debated in public life like immigration, war, and debt, to consider the Republic's founding principles, and the ways in which they have been displaced by newer thoughts and habits in contemporary America. A critical book for understanding our present condition." —Francis Fukuyama, Bernard L. Schwartz Professor of International Political Economy, Johns Hopkins School of Advanced International Studies "In this penetrating book, the nation's finest social and political thinkers from across the spectrum take a careful and no-holds-barred look at the dangers facing the American political system. The conclusions are more unsettling than reassuring---

but that is because they are honest and real." —Norm Ornstein, Resident Scholar, American Enterprise Institute "In the midst of overwrought pundits, irate soccer moms, and outraged bloggers, it is difficult to distinguish genuine dangers from false alarms and special pleading. This book enables us to do so, in a way that helps us to actually think about, not just feel anxious about, threats to those features of American society that are worth cherishing. The authors range in ideology and expertise, but they are uniformly judicious, incisive, and informative. This is a fascinating book about issues that the political system usually ignores or exaggerates." —Jennifer L. Hochschild, Henry LaBarre Jayne Professor of Government and Professor of African and African American Studies, Harvard University

The View from the Bottom 2015 Feb 15 2022 Every politician and candidate should read this book, before taking another office. Wide ranging discussion of issues facing America today, observing all sides of the issues. The author credits the valid arguments of both sides of all the issues, recognizing that everyone is at least partially right, and nobody is all wrong. These are the most divisive issues in the news, and most of us choose the facts and opinions that are comfortable to us, while dismissing those we don't like. Every reader will find much to agree with and some that is unacceptable. But it is all valid and reasonable in the search for real answers and solutions. It is the essence of the American experience, but can America still handle it?

We the Who? Jan 02 2021 America was formed based on a vision of democracy where supreme power is supposed to be vested in the people. In *We the Who?* author Brett H. Lewis asks if Americans are losing sight of who "we the people" are and, more importantly, who we need to be in order to regain our collective identity and ensure America's continued growth and greatness. *We the Who?* presents a collection of essays and opinions that probe into the nuts and bolts of current issues facing America today. Lewis tackles the subjects of classism, racism, justice, politics, the military, and the economy. Through these discussions, he encourages the American populace to be alert and aware to ensure that government of the people, by the people, and for the people continues to be at the

forefront of today's America. Drawing from history, logic, social inclinations, religious beliefs, and personal experiences, *We the Who?* seeks to inform the public and to encourage them to ask questions, express opinions, and hold elected leaders accountable. It communicates the necessity to be informed in order to make quality decisions about our lives.

Nothing to Lose, Everything to Gain Apr 05 2021 Conservative political commentator Kathy Barnette shares how liberal leadership has failed the black community and how being a democrat is not synonymous with your skin color. During his first historic run for the presidency in 2016, Donald Trump made an impassioned plea to the black community. "Give me a chance," he said. "What the hell do you have to lose?" According to Kathy Barnette, black Americans have nothing to lose, except for crime ridden communities, neighborhoods that have become shooting galleries, more social welfare programs, and the mocking indifference of the Democrat party. Barnette argues that even a cursory look into the black community reveals the destabilizing effect liberal policies have had on the black family. There was a time when Barnette bought into the same lie as everyone else-that if you're black, you must be a democrat. In fact, she was born into the Democrat party just as much as she was born into brown skin. There was no point of separation. Until she began to understand what it truly means to be black in America. Barnette contends that being black is more than just the color of her skin. It's a culture and a consciousness, too. In **NOTHING TO LOSE, EVERYTHING TO GAIN**, Barnette writes about why liberal policies have failed the black community time and time again - and will fail the larger American community as Democrats rush to the hard Left of the party. From the "Great Society" to Kanye West's ongoing war with the liberal establishment, this book provides sharp, eloquent commentary on the most pressing issues facing black Americans today: broken family structure, loss of identity, the legacy of slavery, and more. Barnette argues that President Trump has not been willing to presume that the "black vote" is a foregone conclusion resting comfortably in the back pockets of Democrats. With his plainspoken style and willingness to face harsh truths, the president has done more for the black community than any president since Abraham Lincoln. Barnette insists the time is now to get back what has been lost, to fix the brokenness, and to recognize and support those who are actually working in our favor. We have nothing to lose, and even more to gain.

Barriers to Rebuilding the African American Community Jan 22 2020 Barriers to Rebuilding the African American Community explores the major threats and roots affecting both America's most racially polarized periods as well as the major issues plaguing the African American community. The author provides intelligent insight into the deeper roots of America's long history and struggle with racism as well as the solution. The author shows how a background investigation of medical science, culture, and social policy can propel or subdue an entire people group, and examines research on A.C.E.S. (Adverse Childhood Experiences), which affects all communities regardless of race. This book is an exciting and well-researched expose into one of America's most electrifying socio-political movements.
